### SUMMARY

---

Junior Full-Stack Developer with hands-on experience building web and mobile applications using Laravel, React, PHP, MySQL, Flutter, Firebase, and Tailwind CSS with some AI tools and resources. Experienced in full-stack development, database management, responsive UI development, API integration, authentication, and location-based applications. Strong foundation in frontend and backend development with a focus on clean implementation, problem-solving, and delivering practical software solutions.

### TECHNICAL SKILLS

---

**Languages:** PHP, JavaScript, Python, Dart, HTML, CSS

**Frameworks:** Laravel, React, Flutter, Tailwind CSS

**Databases:** MySQL, Firebase

**Tools:** Git, Docker, ChatGPT, Gemini, Claude, Antigravity, Cursor

**Other:** APIs, Node.JS, CRUD applications, database design, responsive web development, algorithms

### WORK EXPERIENCE

---

#### BUREAU OF FISHIRIES IN AQUATIC RESOURCES

General Santos City

Web Developer

Jan 2026 – May 2026

- Developed responsive HR application features using Laravel, Tailwind CSS, and MySQL to digitize employee information management.
- Implemented frontend forms, backend logic, database operations, and CRUD functionality for employee records.
- Integrated frontend and backend components to maintain reliable data flow and structured record management.

#### SWISSSTACKS

General Santos City

Web Developer

Dec. 2025 – Jan. 2026

- Developed a responsive company website using React, CSS, JavaScript, and Firebase to present company services and facilitate customer inquiries.
- Implemented responsive UI components and structured website content to improve accessibility across desktop and mobile devices.

### PROJECTS

---

#### SWISSSTACKS Company Website

2026

- Developed a website of the company using React, CSS, JavaScript SilentForms and Firebase to show its services and skills.
- It gives visitors a clear idea of what the company offers and makes it simple to reach out for more information or support.

#### PERSONAL DATA SHEET SYSTEM

2026

- Developed a web-based employee information system that digitizes personal data collection and reduces paper-based processing.
- Implemented employee data forms, database storage, and responsive interfaces using Laravel, MySQL, and Tailwind CSS.

## IDENTITY MANAGEMENT SYSTEM

2026

- Developed a digital identity management system for collecting employee information and automating ID generation.
- Implemented database-driven forms, data processing, PDF generation, and file compression to reduce manual ID processing.
- Designed the system to streamline the transfer of completed ID documents to the supplier.

## RESME – Mobile Emergency Response Application

2025

- Built mobile and web administrative features using Flutter, Dart, React, Node.js, Firebase, and MapTiler to help individuals quickly locate and contact the nearest emergency response station during incidents.
- Implemented real-time location tracking to help responders identify emergency callers.
- Dijkstra's shortest-path algorithm is applied to support route identification for responders.

## EDUCATION

---

### HOLY TRINITY COLLEGE OF GENERAL SANTOS CITY

General Santos City

BS Information Technology

2026

Relevant Coursework: Data Structures & Algorithms, Operating Systems, Database Systems,  
Web & Mobile Development

## CERTIFICATION & ACTIVITIES

---

### COMPUTER SYSTEM SERVICING (TESDA)

General Santos City

Trainee July 2024

- Learned maintain, repair, configure computer hardware, software system and basic networking.

### 12<sup>th</sup> PSITS REGIONAL CONVENTION

Koronadal City

Participant May 2024

- Competed in Python contest with 8 different schools

## ADDITIONAL

---

**Languages:** English (conversational), Filipino (native)
